OASIS Management Board: Report from the ADS

Title:	OASIS Management Board: Report from the ADS October 2020
Author(s):	Tim Evans
Origination Date:	29 th September 2020
Circulation:	OASIS Management Board

1 OASIS Helpdesk Report

Over the period April 2020 - October 2020 the OASIS Helpdesk received 84 emails. These were classified as:

- 2 queries from HERs about the review/validation process.
- 12 queries regarding registration and login.
- 2 requests for corrections to Parishes in the database.
- 2 requests for ADS to upload large or problematic reports (see commentary).
- 21 requests to delete OASIS records.
- 3 requests to edit Library records.
- 19 requests to re-open/edit completed OASIS records.
- 2 notifications of a technical issue within the OASIS form.
- 15 issues arising from lack of experience/knowledge of the OASIS system.
- 11 queries asking why reports were not in the Library.
- 1 query requesting access to a report not released (see commentary).

Of this number 81 were classified as “low-level” for resolution, meaning that they took 30 minutes or less to resolve. Of the remaining number:

- 1 user trying to upload data to an OASIS record (mistaking it for the ADS-EASY system). This was classified as a “medium” issue and took c. 1 hour to resolve.
- 1 user having problems with the form not saving. This was caused by user entering string data into the 'Time' value of the geophysics section. This should have been numeric data, the JavaScript to catch this and inform the user was working but the user was not understanding the message displayed in the screen. This was classified as a “medium” issue and took c. 1 hour to resolve.
- 1 query requesting access to a report not released via OASIS. This is discussed in the commentary (below). This took 48 hours to resolve, including correspondence between originator, HER, County Archaeologist, and escalation to ADS Deputy Director.

Commentary from ADS

On the whole, the Helpdesk requests were typical of normal workflows and queries. The issue with a very small number of users not being able to upload reports (2) is always a concern. ADS have extended the “timeout” for threads started by upload actions to 30 minutes, but in the case of very large files or very slow internet speeds this is still not working for 100% of cases. ADS will continue to look at the server-side variables that impact this, but there is always a need to consider security vulnerabilities for leaving upload threads open for an unlimited amount of time. In the interim, the Helpdesk will always be available to intercede and help users wherever possible.

OASIS Management Board: Report from the ADS

The other key issue from this reporting period was a request from a contractor to access an OASIS report relating to a project that was part of the same scheme of works but undertaken by another contractor. The case was complicated by the fact that providing access to the report was part of the requirement set by the Local Authority, and that the contracted unit had not yet signed a licence to allow the report to be transferred into the ADS Library and were no longer responding to emails. After negotiation, including agreement by both the HER and Local Authority Archaeologist, the ADS sent a copy of the report to all parties. In the longer-term, with users signing up to a CC-BY licence upon agreeing to the Terms of Use of OASIS, this scenario will no longer occur. However, in the short-term there remain a significant number of organisations that have not signed a licence for their reports, and do not respond to requests to do so. A list of these is being circulated for consideration by OASIS Management Board with a request for guidance on how to deal with them as they are moved over to the new system (OASIS V).

2 Summary Statistics for England

Statistic	Number	Notes
Number of records in system	84,473	
Number of records with minimum fields completed by Level 1	63,215	This is an extra 11,850 records
Number of records reviewed by HER	51,365	
Number of records reviewed by HE Information Analysis	0	
Number of records reviewed by HE Marine HER	0	
Number of records with reports in ADS Library	43,811	
Number of reports in the ADS Library	51,498	More than one report per record
Number of reports hosted externally	394	

OASIS Management Board: Report from the ADS

Number of records where Research Frameworks section has been completed	0	Not yet in place
Number of records deleted	0	Not quantified in OASIS IV

3 User Statistics for England

3.1 HERs: England

This period, further work has been spent on establishing HER presence in the new system (OASIS V) and their set level of use (Standard or Lite). In certain cases, accounts created for UADs or HERs that no longer function as stand-alone entities, have been incorporated into larger accounts (see below). There are a very small number of cases where no correspondence has recently been received, flagged as Amber with notes in the table below.

4 Basic Trend Analysis

4.1 Total Records Started per quarter, 2012-present

Year	Q1	Q2	Q3	Q4
2012	1237	1314	1017	1129
2013	1343	1297	1361	1470
2014	1683	1440	1486	1515
2015	1728	1781	1661	1912
2016	2546	1762	1696	1587
2017	1747	1962	1629	1597
2018	1752	1878	1815	1853
2019	2063	1755	2220	2206
2020	1957	1738	2039	

4.2 Table showing Total Records transferred to Library per quarter

Year	Q1	Q2	Q3	Q4
2012	739	757	1676	617
2013	41	1708	1598	629
2014	1671	1093	1024	740
2015	1087	963	985	1441
2016	981	964	1030	1114
2017	1017	1120	1102	1423
2018	838	929	792	920
2019	1507	2098	2905	800
2020	1479	2708	TBD	

5 Project Type

5.1 Total Records per 'Reason for Investigation'

This table reflects the mapping of 1117 unique free-text terms used in OASIS IV, to the [OASIS Reason for Investigation](#) vocabulary.

OASIS Management Board: Report from the ADS

Reason for investigation	Records
Heritage Management	2561
Planning requirement	74,971
Grant application	154
Personal interest	2025
Unexpected discovery	6
Assessment for designation	26
Emergency recording	22
Ecclesiastical Consent	34
Research	6624
Statutory requirement	4315

5.2 Total Records per 'Activity type'

This table reflects the mapping of an OASIS specific wordlist, to the [FISH Events Type](#) Thesaurus. Please note that a record may have more than one Activity Type, especially older records.

Activity Type	Records
AERIAL PHOTOGRAPH INTERPRETATION	226
AERIAL PHOTOGRAPHY	196
BUILDING RECORDING AND INVESTIGATION	11,395
DESK BASED ASSESSMENT	6287
ENVIRONMENTAL IMPACT ASSESSMENT	906
EVALUATION	40,323
EXCAVATION	4086
FIELD OBSERVATION (VISUAL ASSESSMENT)	2110
FIELD SURVEY	2367
GEOPHYSICAL SURVEY	2246
METAL DETECTING SURVEY	142
OPEN AREA EXCAVATION	2569
REMOTE OPERATED VEHICLE SURVEY	17
RESCUE EXCAVATION	147
SALVAGE RECORDING	259

SYSTEMATIC FIELDWALKING SURVEY	169
TEST PIT	841
WATCHING BRIEF	23740

6 Systems Report

The following scheduled actions have been undertaken over the reporting period until 30 September 2020:

- OASIS IV database (Oracle) updated. Impact: Brief downtime between 08:00 to 13:00 26 March 2020.
- OASIS IV Ubuntu 16.04 virtual machine was migrated to Ubuntu 18.04 (support for Ubuntu 16.04 will finish in April 2021 and was classified as a security risk). Impact: no downtime.
- OASIS IV Glassfish web server have been updated to Payara 5.201, to improve overall consistency and security. of our web servers. Impact: no downtime.
- Networked File System (i.e. where reports and other uploads are stored) has also been upgraded by the IT Services department at the University of York. Impact: downtime 22.00 17th July to 13.00 19th July 2020 (weekend).
- OASIS V Beta moved from virtual machine (ads1test1) to main production machine (adsoasisorig0). Machine also updated as standard to Payara 5.201 (June 2020). Impact: no downtime.
- OASIS IV database (oracle) updated. Impact: downtime 22.00 24th August – 09.00 25th August 2020.

Wherever possible, alerts were raised to users about forthcoming downtime. No complaints or issues of lost records were recorded. Total System Uptime was 99.2%.

There were no security incidents reported during the past year.

7 HIAS Measurables (England): 01 April – 30 September 2020

4a	Total no of investigations recorded on OASIS	4132
4b	No of built heritage investigations recorded on OASIS	385
4c	No of community investigations recorded on OASIS	23
4d	No of marine investigations recorded on OASIS	27
4e	No of investigative reports released into ADS Library	3632

4f	No of investigative reports released into ADS Library within the default review period (6 months)	1387
4g	% of HERs actively reviewing OASIS records	75
4h	% of OASIS records reviewed by HERs	80
4i	No of Historic England investigative projects recorded on OASIS	68

8 Other Statistics

5.1 Summary of records not signed off by HER: England

Year record initially created	Total number of OASIS records completed by contractors in this year	No of records with status 'Waiting for HER to validate'
2004	367	2
2005	936	31
2006	1688	98
2007	2121	114
2008	2584	177
